## ROUND TANKS \| URBAN

If you have a big yard, expansive gardens or a pool (or your kids just love the sprinkler! ), a Round Urban tank might be the most appropriate solution. They look great, they're surprisingly compact, and they're available in a wide range of sizes and colours. So you're sure to find one that blends in perfectly.

TANK COLOURS > SEE PAGE 4

335 L (75 Gallons) Round Smooth $760 \mathrm{~mm} \times 890 \mathrm{~mm}$ (Dia. $\times \mathrm{H}$ ) Inlet Height: 890 mm Colour: Beige

2250 L (500 Gallons) Sqt Smooth $1860 \mathrm{~mm} \times 1170 \mathrm{~mm}($ Dia $\times \mathrm{H})$ Inlet Height: 1050 mm Colour: Heritage Red

450L (100 Gallons) Round Smooth $760 \mathrm{~mm} \times 1270 \mathrm{~mm}($ Dia $\times \mathrm{H})$ Inlet Height: 1270 mm Colour: Birch Grey

2250 L (500 Gallons) Round Corrugated $1400 \mathrm{~mm} \times 1630 \mathrm{~mm}$ (Dia. $\times \mathrm{H}$ ) Inlet Height: 1560 mm Colour: Merino

675L (150 Gallons) Round Smooth $760 \mathrm{~mm} \times 1700 \mathrm{~mm}(\mathrm{Dia} \times \mathrm{H})$ Inlet Height: 1700 mm Colour: Tank Black

$3000 \mathrm{~L}(660$ Gallons) Round Banded $1400 \mathrm{~mm} \times 2270 \mathrm{~mm}$ (Dia. $\times \mathrm{H}$ ) Inlet Height: 2200 mm Colour: White

900 L (200 Gallons) Round Smooth $1070 \mathrm{~mm} \times 1400 \mathrm{~mm}$ (Dia $\times \mathrm{H}$ ) Inlet Height: 1400 mm Colour: Earthtone

3200 L (700 Gallons) Round Smooth $1750 \mathrm{~mm} \times 1790 \mathrm{~mm}($ Dia $\times$ H) inlet Height: 1690 mm Colour: Mist Green

(1) Ribs in the roof give added strength

(2) Under the Leaf strainer is a UV cover to block sunlight that causes algae growth

(3) Unique textured finish blends bette with the environment

10000L (2200 Gallons) Round Smooth
$2550 \mathrm{~mm} \times 2480 \mathrm{~mm}$ (Dia $\times$ H), Inlet Height: 2350 mm , Colour: Metal Grey

2250L (500 Gallons) Round Smooth $1500 \mathrm{~mm} \times 1700 \mathrm{~mm}$ (Dia $\times \mathrm{H}$ ) Inlet Height: 1700 mm Colour: Heritage Green

4500 L (1000 Gallons) Round Corru $1820 \mathrm{~mm} \times 1980 \mathrm{~mm}($ Dia $\times H$ ) Inlet Height: 1900 mm Colour: Smooth Cream

5000L (1100 Gallons) Round Banded $2010 \mathrm{~mm} \times 1970 \mathrm{~mm}($ Dia $\times \mathrm{H})$ Inlet Height: 1900 mm Colour: Slate Grey

5000 L (1100 Gallons) Round Smooth
$1860 \mathrm{~mm} \times 2100 \mathrm{~mm}($ Dia $\times \mathrm{H}$ ) Inlet Height: 2060 mm
Colour: Torres Blue

## ROUND TANKS I RURAL

Our Round Rural water tanks are for the farmers, breeders, market-gardeners, nurseries and acreage-owners amongst us. They're tailor-made to see you through the dry spells, even in the face of serious water consumption or irrigation requirements.

13500L (3000 Gallons) Round Corrugated $3050 \mathrm{~mm} \times 2350 \mathrm{~mm}($ Dia $\times \mathrm{H})$ inlet Height: 2050 mm , Colour: Earthtone

22700 L (5000 Gallons) Round Smooth $3650 \mathrm{~mm} \times 2680 \mathrm{~mm}$ (Dia. $\times \mathrm{H}$ ) Inlet Height: 2390 mm , Colour: Mountain Blue

22700 ( 5000 Gallons) Round Corrugated $3650 \mathrm{~mm} \times 2950 \mathrm{~mm}$ (Dia. $\times \mathrm{H}$ ) Inlet Height: 2560 mm , Colour: Heritage Red

27250L ( 6000 Gallons) Round Smooth
$3650 \mathrm{~mm} \times 3100 \mathrm{~mm}$ (Dia. $\times$ H), Inlet Height: 2850 mm , Colour: Rivergum

## INDUSTRIAL TANKS

Custom fitted liquid feed and fertilizer applications.
Naturally, we can manufacture and fit out your tank to your exact specifications, including the fabrication of various fittings, from extension flanges, backing plates and full face flanges, to threaded fittings, sight glasses and float level assemblies. What's more, every tank is delivered complete with a Hydrostatic and Fabrication Inspection report.

## FEATURES

- Rigid single-piece construction using more resin for a thicker wall
- Large 500 mm leaf strainer in all larger tanks complete with U.V. Cover
- UV stabilised
- Compliant with Australian Standards
- Food-grade Polyethylene materials
- Government Rebates available

## SLIMLINE TANKS

When space is at a premium, a slimline tank is your very best friend. Especially one from Plastek. Our slimlines are designed to be as inconspicuous as possible. To blend - and fit - right in. Of course, they still hold their own when it comes to water storage; they can hold anywhere from 495 litres to 5,000 litres each!

## FEATURES

- 495-5,000 litre capacity
- Full range of colours available
- 10 Year fix or replace warranty
- Government Rebates apply
- Can be connected to toilet and washing machine
- Link multiple tanks together for a greater storage capacity
- Standard inclusions; Overflow, strainer and brass filting

5000 ( 1100 Gallons) Slimline Smooth
$3100 \mathrm{~mm} \times 1150 \mathrm{~mm} \times 1950 \mathrm{~mm}$ (LWH), Inlet Height: 1950 mm , Colour: Rivergum

## POPULAR TANK COLOURS

The days of the ugly old rainwater tank are long gone. With these fashionable - yet subtle - colours available, your Plastek tank will go nicely, wherever you decide to put it.

## RAINREVIVA TANK TO TOILET SYSTEMS

The Rainreviva Pump \& Quick Switch Pump Box takes our unique design one step further by incorporating all components inside our pump box - plumbed up and ready to go! The sole purpose of the Quick Switch is to make installation simple, quick and efficient, taking the complexity out of mains switching systems. Our unique design automatically switches water from tank to mains and back without the use of a float lead

RainReviva Pump and Quick Switch Pump Box

SUBMERSIBLE KIT AVAILABLE SOON

## FEATURES

- Quick installation
- No float lead required
- 2 Year replacement warranty
- Pump AS4020 certified
- Quick switch Watermarked

ACCESSORIES

RainReviva Pressure Pump 401 pm at $160 \mathrm{kPa}-600$ watt

Pump Cover Smooth, Colour: Rivergum $495 \mathrm{~mm} \times 380 \mathrm{~mm} \times 560 \mathrm{~mm}$ (LWH)

## UTE TANKS

The weather never gets any kinder to a farmer, so it's nice to know technology can occasionally lend a helping hand. Our range of hexene copolymer resin ute tanks make it surprisingly easy for you to haul water where your stock needs it most. Available in sizes from 495 litres up to 810 litres, they're tough and UV resistant, and come with a convenient screw-top lid, so cleaning and filling is a breeze. $1200 \mathrm{~mm} \times 1200 \mathrm{~mm} \times 660 \mathrm{~mm}$ (LWH)

585L (130 Gallons) Ute Tank $1350 \mathrm{~mm} \times 800 \mathrm{~mm} \times 860 \mathrm{~mm}$ (LWH)

810L (180 Gallons) Ute Tank
$1520 \mathrm{~mm} \times 940 \mathrm{~mm} \times 1000 \mathrm{~mm}$ (LWH)

Plastek also have a full range of concrete troughs available from 240 Litre to 1636 Litre. Limited distribution... call now for a price!

## POLY TROUGHS

Strong, easy to fill, easy to empty, easy to clean and easy to transport. There's no better way to describe a Plastek poly trough. Available in sizes from 225 litres all the way up to 5000 litres, they're light, but have a square lip for extra strength. They also have a tamper proof float valve that shuts off when full, a concealed inlet, an easy-empty drainage plug, a smooth finish for easy cleaning and they nestle neatly for transportation.

450L (100 Gallons) Poly Trough $1520 \mathrm{~mm} \times 840 \mathrm{~mm} \times 480 \mathrm{~mm}$ (LWH)

2,500L (550 Gallons) Poly Trough $2400 \mathrm{~mm} \times 760 \mathrm{~mm}$ (Dia $\times \mathrm{H}$ )

5,000L (1100 Gallons) Poly Trough $3100 \mathrm{~mm} \times 760 \mathrm{~mm}$ (Dia $\times \mathrm{H}$ )

## FEATURES

Plastek rainwater tanks are built in Australia, for Australian conditions. They're built tough, they're built to exceed Australian standards, and they're built intelligently. Because once your water tank's installed, you don't want to have to think about it at all. Our tanks just do what they're supposed to do. So you can too

- 335-27,250 litre capacity.
- All tank roofs are self supporting, so no need for a centre support pole land no $\mathrm{OH} \& S$ issues with confined space \& entry, etc.).
- UV cover under leaf strainer to block sunlight that causes algae growth.
- Polyethylene material complies with Australian standard AS2070 (food grade) and AS4020 (drinking water).
- UV stabilised to withstand Australia's harsh sun.
- Unique textured finish blends better with the environment than the glossy plastic look of other tanks. Corrugated profile also available.
- Maximum shot weight of plastic material to guarantee ample wall thickness.
- Walls are thicker at the bottom for maximum strength where the water pressure is greatest.
- Plastek tank moulds are designed and built to separate at the top ensuring part line is positioned in the least stressed area. Poorly designed moulds with parting lines down the sides lead to weak areas in the tanks wall causing splitting.
- All tanks come with gate or ball valves (depending on tank size) and overflows.
- Tanks are tested using inhouse facilities that include ultrasonic thickness measurements and impact testing.
- Predicted 25 year lifespan (using Finite Element Analysis (FEA)

## DELIVERY

We deliver for free, anywhere within a 500 km radius of our Ballarat manufacturing plant. All larger tanks are delivered to site (some conditions apply with permit zones). Please make sure there's sufficient access for our trucks. They're approx 19 metres long, 3.5 metres wide and 4.6 metres in height. And they have a 20 metre turning circle. If there's not enough room, our drivers will choose another
location to unload. Please note: our drivers don't install or plumb tanks. For more information about our unloading requirements, please call us on 1800065356.

## MOVING AND POSITIONING TANKS

Tanks can be quite awkward things to move, so make sure you have enough people on hand to do the job properly.

| Tank Size | No. of People Required |
| :--- | :--- |
| $2000 \mathrm{~g} / 3000 \mathrm{~g}$ | 2 People |
| 5000 g | 3 People |
| 6000 g | 4 People |

## ROUND TANKS I INSTALLATION

1. On a flat level site, build a well compacted 75 mm sand base, with diameter 500 mm larger than the tank's base, and a retaining beam to prevent erosion.
2. Install a flexible suction hose, at least 300 mm long, after the gate valve, to reduce stress on the tank wall. IMPORTANT: Poly pipe is NOT suitable as it is too rigid.
3. Direct overflow away from the base, and ensure it has more capacity than the sum of the inlet pipes.
4. If you're fitting the tank to a tank stand, ensure the spacing of the hardwood decking is a maximum of 20 mm . NOTE: If you don't follow these instructions when installing your tank, you will void your warranty.

## SLIMLINE TANKS I INSTALLATION

Slimline tanks must be installed on a concrete slab.

1. Lay a level concrete slab at least 100 mm deep, and 50 mm wider than the base of the tank. Place a layer of reinforcing mesh 25 mm from the bottom.
2. Make sure all the corners of your formwork are filled with concrete, and there are no air pockets under the surface of the slab.
3. Smooth and level the top of the slab, then finish with a timber or steel trowel.
4. Remove the Slimline temporary wheel system when tank is in position. NOTE: If you don't follow these instructions when installing your tank, you will void your warranty.

TANK CONSTRUCTION
Why Plastek? Because we're a local company that understands what other locals need. We've been operating out of our manufacturing plant in Ballarat since 1994, so we know what the local elements — and the local livestock - can dish out.

As a result, our products are built smarter. All our poly products are UV stabilised, our tanks are pleasing on the eye, and strongest where the water pressure is greatest (and have the warranty to match). Our troughs and ute tanks are tough, durable and easy to use. And, of course, all our accessories are quality too. But the biggest reason to choose Plastek is simply because you'll get the product you need. A proven product that will get the job done. Simple.

## OUR DIFFERENCE

Tanks have been our business since 1983. And if we've learned one thing since then, it's that making things easy for you, ultimately makes things easy for us. When we plan and quality control things properly, we get the job done quicker, with fewer hassles and a much shorter lead time. When we treat you professionally, deliver the results you're after, and actually follow up, you keep coming back. And when we customise to your requirements, we don't waste time trying to force a square peg into a round hole.
We also think that being wholly Australian owned is very important. It means we know what Australians need - and we care about delivering it, that we know how tough Australian conditions are, and that our entire range of rainwater tanks can withstand those conditions.

## QUALITY GUARANTEE

All Plastek tanks are guaranteed against faulty workmanship and manufacturing defects - They come with a 10 year fix or replace warranty.

We can offer such a great warranty because we know our products are built to last. They're built using the finest grade polyethylene, formulated to withstand Australia's harsh sun, and they're built smart, so they can withstand the stress of day to day use.

## GOT A QUESTION? FREECALL 1800065356

If you'd like to discuss your tank requirements, give us a call. You'll speak with a person, not a machine! Someone who specialises in tanks, and is happy to take the time to offer advice and guidance.
